PRODUCT
900 x 2080 x 690 mm

PACKAGING
N.C.

Line Magnetic Audio is a brand of High end products founded in 2005. Now it has become well known with its series reproduction of music and regarded as a forerunner in presenting innovative products with cutting edge technology and lasting intrinsic value. Tube electronics, CD players, Classic horns, Classis field coil speakers, DACs, a lot of different series of products we are working on not only Classis electronics but also new technology on dacs and CD players.

The LM-3 are exceptional speakers. The pavillon and its medium driver are replicas of the famous Western Electric 22A and the Western Electric 555W. A reproduction at the antipodes of the « hi-fi » with an extremely natural sound of great magnitude.

The bandwith extends from 150Hz to 13kHz. In the bass, an 18-inch speaker, the TA-7376 founded in a low-reflex load. Finally the treble is entrusted to the LM-302, replica of inspiration Jensen.

The result is amazing : An input sensitivity of 105 dB for an impedance of 8 Ohms.

SPECIFICATIONS

3-way speakers
LM302 – 22A – LM555W
BA-18

Frequency response:
23Hz to 20KHz
Input sensitivity: 105dB

Horn: 22A
Compression chamber:
LM5555W Alnico
Woofer diameter: 46cm

Treble driver: LM302
Bass driver: BA-18
3-way passive filter: TA-7376

Load impedance for HP to
connect: 8Ω

Connectors
Screw terminals compatible
with banana plugs

Finishe: Dark Brown US Pine

*Note: This speaker is also
available with excitation
drivers.*
